Foreword

This is the Career Success Report at JAGSoM for the Class of 2024. The strength of the curriculum and the learning experience of the PGDM Program at JAGSoM is demonstrated in the outcome, a glimpse of which can be seen from this report.

We congratulate the Class of 2024 for demonstrating their excellence in pursuit of their Career Success!

And to our ever growing list of partners who have reposed their faith in the Class of 2024 – Thank You!!

- Prof Rajesh Kumar
(Chair, Placements and Internships for the Class of 2024)

Methodology

Initial Compilation: The Career Success Report was initially compiled based on available data in early July 2024.

Augmentation: Subsequently, an online form was circulated by email in September to the Class of 2024 inviting the class to share their placement information, and responses were processed.

Draft Version: In the 1st week of October 2024, the draft report was shared by email with Class of 2024, inviting any additions or edits. Edits received were incorporated in the Final Report.

Final Version: This report is prepared on the best available data as on 05 Oct 2024.

Career Success at JAGSoM

JAGSoM follows a two-pronged approach for enabling career success of its graduating students.

1. Inbound Placement

Companies are invited to participate in the recruitment process and select candidates from the pool of applicants, for different roles across specializations and career tracks.

2. Outbound Placement

Candidates are also encouraged to approach and engage with other companies directly for roles of their choice. On the flip side, companies can also identify individual candidates based on their specific needs. This matchmaking is enabled through a unique resource- the Career Track section of the website, where recruiters can search and find the right candidates/resumes - with filters like specialization, career track, role, undergraduate qualification, work experience, etc.

<https://jagsom.edu.in/careertrack/>

The microsite is also promoted through email campaigns to companies who do not wish to participate in campus placement and prefer a focused approach.

ROLE DEFINED CAREER TRACKS

JAGSoM follows a step-by-step process to prepare the participants for the target roles:

Step 1: Self Discovery: Outbound Leadership Lab (OLL) and Psychometric Assessments to enable a participant to discover her/his strengths.

Step 2: Preparation of Individual Development Plan: This helps the participants to decide on their targeted roles and related Career Track based on strengths.

Step 3: Mentoring: Mentorship by industry practitioners, who guide participants in preparing for targeted roles.

Step 4: Learning by Solving: Participants work in groups to solve an industry-supported real-life business problem mentored by a faculty member.

Step 5: Long Industry Internship (IIP): 16-week- long internships as a capstone intervention, in a role aligned to one's career aspirations.

The IIP of the Class of 2022-24 demonstrates the success of this approach, as participants across tracks received offers in their desired roles in companies of repute, as illustrated on the next slide.
